SUMMARY

Full Stack Developer with experience building and deploying web applications using JavaScript, TypeScript, Next.js, Vue.js, React.js, Node.js, Hono, SQL, and MongoDB. Experienced in developing responsive user interfaces, integrating RESTful APIs, working with databases, and delivering production-ready solutions for clients. Strong leadership experience through progressive technical roles at Inovus Labs IEDC.

SKILLS

Languages

- JavaScript, TypeScript, HTML5, CSS3

Frontend

- React.js, Next.js, Vue.js, Nuxt.js
- Tailwind CSS, Responsive Web Design

Backend

- Node.js, Hono
- RESTful API Development

Database

- MongoDB, SQL

CMS

- Payload CMS

Tools & Deployment

- Git, GitHub
- Cloudflare, Vercel, Netlify

PROJECTS

GigWork – Business Directory for Freelancers & Service Providers

- Developed a business directory platform enabling users to discover service providers.
- Built responsive frontend interfaces using Next.js and Tailwind CSS.
- Integrated frontend with backend APIs and business management workflows.
- Contributed to admin panel functionality and platform development.

Tech: Next.js, TypeScript, Hono, SQL, Tailwind CSS

Link: <https://gigwork.co.in>

CMS-driven Web Platforms (Client Projects)

- Built and maintained content-managed web platforms for client organizations.
- Integrated frontend applications with Payload CMS and backend services.
- Worked with MongoDB-backed CMS infrastructure and content management workflows.

Projects: Aspireon Learning Solutions, SBCS School Website

Tech: Next.js, Tailwind CSS, Payload CMS, MongoDB
